A. Susan is reading the following instructions.

How to Make Restaurant Reservations

You may find that waiting for a table at a restaurant is a waste of time. It is helpful to make restaurant reservations. Making restaurant reservations helps you get a table for dinner easily.

Step 1: Call as early as possible

5

You can make a dinner reservation on the same day of your dinner. However, you can call earlier. Many restaurants can reserve a table for you a few days or even a month in advance.

Step 2: Have an early or late dinner

10

Do not make a reservation at 'prime time'. It is better for you to make a reservation at 5:00pm or 10:00pm. It is easier for you to get a table because not many people have dinner at these hours.

Step 3: Give clear information

15

You must tell how many people are going to have dinner. You must also tell them the time you are going to arrive at the restaurant. You must give them your phone number.

Step 4: Remember the phone number of the restaurant

Always remember the phone number of the restaurant. Call them when you cannot go for dinner or when you have enquiries. They are always happy to answer your questions.
