A wonderful day with my friend

Last Sunday, I had a wonderful day with my friend Aura. She brought her fish and played with me.

In the morning, we did jigsaw puzzles at home. These jigsaw puzzles had ten thousand pieces. I thought that it was too hard for me, but my friend thought it was easy. Then, I heard my birds calling me and said, "We need to go outside now!"

In the afternoon, we went roller skating at a country park. We could see a lot of people. We were very happy there.

At night, we went hiking on a mountain. Then, we put up a tent and slept until Monday. Luckily, it was still a holiday.

I felt excited but tired because I had a wonderful day with my friend.
