

## A Visit to a Farm

5A Chan Cheuk Ying Cherie

During the summer holiday, my family and I decided to go to a farm because we wanted to take a break from the polluted city and relax in the countryside. We picked a sunny day to go, so we would be able to do some outdoor activities there. We went there by minibus.

When I stepped out of the minibus, I felt some wind blowing towards me. I could breathe the fresh air. I felt free. I could see lots of things, for instance, cows, ducks, chickens and a farmhouse.

On the farm, we went to see some animals first. While my mum and I were collecting eggs, one of the farmers was feeding the cows some wheat. We were careful so that we wouldn't step on the eggs by accident. Dad helped us by standing next to us and alerted us when the eggs were in front of us.

Next, I saw a rope course that I really wanted to play on, so I asked my mum. Mum agreed and said, 'You must be careful so that you won't hurt yourself.' Mum gave me a helmet. Then, my parents prepared lunch for us. Dad went prawn fishing in the pond while Mum was picking strawberries in the strawberry field.

After that, we went into the farmhouse to start the barbecue. Suddenly, I heard a familiar voice. I turned around and saw my favourite actor. I was amazed and shouted, 'May I take a photo with you? I am your big fan!' He turned around and replied with a bright smile on his face, 'Sure. What's your name?' I told him my name and gave him some pork chops.

Then the actor asked, 'I'm filming a movie. Do you want to join? I replied without hesitation, 'Of course! That would be my dream!' So, we filmed the movie and it became the best of the year.

Before getting on the minibus, I took a picture with my favourite actor again. I hope I can be an actor like him in the future.
